from the PRESIDENT'S DESK...

Dear Members,

It has been an honor to serve as the president of our esteemed organization over the past year. The industry as a whole has faced a plethora of challenges and has come out more resilient because of it.

The first half of this year was marked by the scarcity of gold all over the country, both for exports as well as for domestic consumption. Our industry suffered a tremendous amount during that period. Our Association along with the GJF and other national Jewellery Associations got together in Delhi to successfully pressurize the government into easing the norms for the import of the metal.

Our industry has evolved a great deal over the past decade, in which we have seen the rise of big corporate houses opening new branches and outlets at a rapid pace all over the country. No city has felt this effect more than Bangalore. New entrants in the market have been undercutting the competition and some even indulging in unethical practices which give the trade as a whole a bad name. We have approached various shops to stop this practice of publishing unethical ads.

Earlier this year, it had come to the attention of the BIS hallmarking authority that some jewellers were indulging in the malpractice of illegal hallmarking. Due to this, the authorities have clamped down and put in strict measures to follow for the hallmarking of jewellery. Some of these measures are impractical which hinder the genuine hallmarking done by the jewellers. We are currently having discussion with the concerned authorities to remove or change these impractical rules to help the industry.

Efforts have been made to purchase a suitable, rent yielding property for the Association with the large corpus of fixed deposit we have. A viable property could not be found, however, money is still being earned by the Association from this corpus by the way of interest from these fixed deposits. The Association is currently going through a purple patch where the profits and funds available are at an all time high. Suggestions on how to best utilize this money towards our industry will be greatly appreciated.

The gold quest treasure hunt was conducted in the month of June, which brought together the family and friends of the members of our organization. We received an overwhelming response for this treasure hunt that saw over a hundred people participate in it. It was a truly memorable experience for all involved. We have received many requests from our members to make this an annual event.

Over the past year or so, the volatility in the gold prices has made the customer uncertain about when to buy his or her Jewellery. The primary reasons for this was the tapering of quantitative easing in the US which has forced gold to fall in the international markets. The only reason why gold did not fall further locally was due to the fact that while it was falling internationally, the duty on gold in India kept increasing and is currently at an historic high. Some stability in the prices will be seen as US starts to gradually increase the interest rates, which is expected to happen in the middle of 2015.

The coming year looks like it could be an extremely positive year for the industry as the Indian economy looks like it is finally back on track, which means that the local demand should increase in the long run with the help of a more stable gold price and a healthier relationship with the departments.

I would like to once again thank the members of this Association for bestowing on me the chance to serve this glorious industry over the last year. I would also like to take this opportunity to thank the sponsors for their support.

Thanking You,

Pathi Mahesh
(President)
